Address: West Side, El Paso

Price: 3200.00 \$

This is a BEAUTIFUL 2016 KTM 65 that has been very meticulously maintained and serviced with Lucas Oil products and NGK plugs only. Yes this bike has been raced and was kept to a higher standard than an ordinary bike and never let us down. Oil and plugs changed at the same time before each race. Top and bottom ends are still OEM and are still within spec. I just serviced the bike to sell, the reeds are in great condition and I also cleaned the carb. We raced the bike 2 and a half seasons at Tulie so it was just a "Weekend Warrior" bike. No internals were modified, just the exterior. This bike is track ready and needs absolutely nothing. My son is a very cautious rider so it was never really rode to its potential. Selling because my boy moved to the 85's. Any questions text or call. No trades, Scammers or Cashiers Check . O.B.O.
