Price:

5700.00 \$

(Sorry some of the images aren't oriented correctly as they weren't uploaded that way)  
2023 Honda Trail 125. Its styling is a retro throwback to the old CT 90, but with many updated features and a more robust 125cc engine. It's in excellent condition and only has 450 miles on it. 2023 is the only year it came with this highly desirable green color. It's impossible to find these Trail 125s for less than \$5,500 in California new out the door with all the fees Honda charges. There's also a long waiting list for these bikes. This package deal comes with a steel Mototote carrier, not the flimsy aluminum carriers with 4 heavy duty buckle tie-down straps. My 4 cylinder Honda CRV easily hauls the carrier and bike without knowing it's even back there. Also included is a 40 liter Givi rear trunk with mounting plate. The carrier and trunk extras are an \$850 value. It can easily hold many accessories and a full size helmet. Also included is a gently used helmet in new condition. Located in Alta Sierra.
